考题文字:	<p>Do you agree or disagree with the following statement?</p> <p>It is proper for the public to know celebrities, such as musicians' or sportsmen's, political views.</p> <p>Use specific examples to support your answer.</p>
参开范文:	<p>It is common that an increasing number of celebrities such as musicians and sportsmen have more opportunities to express their political opinion to the public so some people claim that it is essential for the public to understand those stars' opinion while others hold the opposite view because those celebrities' political views are not closely related to people's daily life. However, I think getting the hang of the celebrities' political view is unnecessary.</p> <p>Firstly, we may be misled if we are exposed to the political view presented by the celebrities because those successful and famous stars could take advantage of mass media to give us out wrong information intentionally for procuring large amount of money in a short time. For example, Kent, a talented musician born in a small village in Europe, expressed his political about using plastic bags in his county, stating that it is necessary for his government to enforce the law compelling its people not to use plastic bags because plastic bags is detrimental to people's health. As a matter of fact, his perspective towards plastic usage</p>

is nothing but he wants to attract more attention from the public, thus making large sums of money for his luxury life and ignoring people's human right. Thus, it is celebrities' unfair opinions that misguide people and, therefore, knowing celebrities' opinion is of no importance.

Although a minority of people might hold that view that people are easy to keep updated with the government's policy if the influential celebrities voice their political view straight in public because those celebrities who are household name opine their views in a relaxing way, thus showing that people have more chances to be involved in the current affairs actively. However, there are many other ways for people to keep abreast of the government's latest policy, such as News Programs online and in mobile phone. Those free sophisticated electric devices outweigh the celebrities.

In conclusion, I support that it is improper for people to know the celebrities' political views because those views might misguide people. Only by isolating people from political views demonstrated by those celebrities can the society develop in a harmonious way.
