

朗阁新托福口语考题预测

第一套:

题号	内容	
Question 1	Your city is about to build a new factory so as to provide more job opportunities for citizens; however, the factory might lead to environmental pollution to some extent. Do you agree or disagree to build such a new factory?	
Question 2	Reading part 【学生建议】: Announcement: Rebuild a second-hand bookstore. Reason 1: Provide more used materials for students; Reason 2: Students can sell these books to school.	Listening part 【学生态度】: The woman agrees. Reason 1: It is money-saving coz she spent loads of money on books before. Reason 2: It can free up space coz students used to throw books on the ground. Also, students can gain money from selling books.
	Question: Explain the woman's opinion and why she holds that opinion.	
	Reading part 【名词解释】: Value analysis: a way to reduce cost but it is irrelevant to adjust price.	Listening part 【教授举例】: Example: A company produces a special camera and makes efforts to invest money in corn function, but customers are not crazy about it, so the company decides to cancel this function, which reduces the cost and increases profits.
Question 3	Question: 用听力的例子来解释对这个概念的理解。	
	【讲课要点】: Two reasons why dragonflies can capture prey efficiently. Example 1: Huge vision can spot objects much far away from them. Example 2: Highly developed system in brains that can test rate when prey moves around.	
Question 4		

第二套:

题号	内容	
Question 1	Do you agree or disagree with the following statement? Children should learn to use computers and other electronic devices as early as possible.	
Question 2	Reading part	Listening part
	【学校通知】: Notice: The university is going to develop online course evaluation. Reason 1: Online evaluation saves time for students in the last week of the semester. Reason 2: Students can get results much earlier on the Internet than through the paper.	【学生态度】: The man disagrees. Reason 1: Students have too many things to do in the last week of the semester so they might even forget to take evaluation; Reason 2: There is a long vacation so professors don't need to produce the results in such a short time; If the professors can give results just three weeks before the new semester, students will be OK with it.
	Question: Explain the man's opinion and why he holds that opinion.	
Question 3	Reading part	Listening part
	【名词解释】: Interviewer Influence Some companies focus more on target customers.	【教授举例】: Example: The furniture company plans to sell something different, so it finds the customers who want to buy furniture, rather than following traditional sales strategies. The company posts pictures of the goods on the blog in order to attract more customers. The result is that the company gains huge profits from the new strategy.
	Question: 用听力的例子来解释对这个概念的理解。	
Question 4	【讲课要点】: There are two different ways of hibernation for different species The first way is to hibernate in regular time. Example 1: The squirrels often eat a lot of food in summer. When it is warm, they will store a lot of food, then, they will choose to hibernate in late summer. The second way is to hibernate in cold weather or find few food. Example 2: If there is enough food in warm climate, poky mouse will no longer hibernate.
