Question 2	Reading part	Listening part
	【学校公告】 The student wrote a letter to the university newspaper to suggest that the evaluation result of professors should be exposed to the university since: 1. professors will be motivated to work harder after seeing this; 2. students can have reference when deciding on courses.	【学生态度】 The woman disagrees with the letter. 1. Professors won't be happy to be justified so that they might not be cooperative in teaching. 2. Evaluations often are made immediately after class when students really want to leave, so students may not be able to provide any helpful advices.

Once their behaviors are restricted, they will do something to resist to the restrictions or decisions.	【教授举例】 1. 小孩一直在一个 playground 玩, 如果有一天爸妈不允许他去了, 他会觉得 unfair, 就会偷偷去玩, 而且玩得时间更长; 2. 一种肥皂因为成分污染环境, 政府禁止购买, 但是人们觉得自由购买商品的权利被剥夺, 反而会买得更多。
	Question: 用听力的例子来解释对这个概念的理解。	
Question 4	【讲课要点】 Two ways for animals to hibernate: 1. hibernate in the same time of the year before the weather gets cold and the food becomes scarce. E.g. Arctic squirrels hibernate in the same time every year. They eat enormous food at the earlier summer and hibernate when the weather is cold and food is scarce in the late summer. 2. hibernate until food is not available and weather gets cold. E.g. pocket mouse hibernates according to the weather and the food availability.
