Question 1	Friends may disagree with each other and still maintain friendship. Do you agree with or disagree with this idea, why?	
Question 2	Reading part	Listening part
	【学校通知】 The university plans to create a Student Magazine. The first reason is because students spend a lot of time on their paper, and some of them have high quality. So we need a magazine to publish those good quality papers. And the second reason is that publishing students' paper can share information about their academic achievement and provide them with confidence.	【学生态度】 In the conversation, the woman agrees with the plan. Reason 1: There are a lot of papers, and we can select some of them to publish on a magazine. This will be an encouragement for the students. Reason 2: Other students will be able to find useful material from these papers and they can learn how to organize their own paper.
	Question: Explain the woman's opinion and why she holds that opinion.	
Question 3	Reading part	Listening part
	【名词解释】 In the lecture, the professor talks about the concept of Life Stage of Animal Migration, which means that in different life stages, some animals need to migrate to various places to live, because of the diet and safety. When they are young, they may be safe and have enough food in the original place. However, if they grow older, the original place may have threads from the predators and the food may be insufficient.	【教授举例】 Anglerfish lay eggs in deep sea. Then, the eggs will float to the surface of the sea, where the younger anglerfish can enjoy enough food and sunlight. But when they grow older, the predator will be a great threat to them, so they will migrate to the deep sea.
	Question: Using the example to explain the concept.	
Question 4	【讲课要点】 In the lecture, the professor talks about Business Networks. He offers an example to illustrate it. We are in a business network. Different people engage in various occupations. They have different knowledge and skills. For example, a woman running a restaurant may have friends or customers engaged in various occupations. When she needs an accountant, she will find one from her business network. She will trust more on the accountant whom she knows than those she does not know. What's more, in a business network, we not only trust people from our own networks, we also trust people who are recommended by the people	

we know. For example, the woman will introduce one of her friends to another, who may need the professional help but does not know a person in his/her own network.
